

PEPPOL Directory

2-year anniversary presentation

F2F London

23-11-2016

PEPPOL Directory update

▶▶ Update since last meeting

▶▶ Two concurrent design proposals (A and B) without consensus

- ▶ Design A: grab data from SMP
- ▶ Design B: push data to SML

▶▶ PD eDelivery Operational Management Board (OMB) meeting Sept 28th

- ▶ <https://ec.europa.eu/cefdigital/tracker/browse/EDELGOV-7>
- ▶ EC support was given for PD team's proposed "Design A"

▶▶ Outstanding issues, Challenges, Risks and mitigation

▶▶ PEPPOL MC and POACC CMB to make decision

- ▶ MC is recommending Design A
- ▶ Some changes in the Business card data layout are foreseen
 - Additional Information, Contacts and Website URLs were dropped

▶▶ F2F Workshop in Brussels planned with EC tech team to decide future joint steps (December 7th)

Searchable fields - IN

Field	Reason	Mandatory?
Participant ID	Obvious	Yes
Legal registration name	Obvious	Yes
Country code	E.g. similar legal reg. names in different countries	Yes
Geographical region (address information)	E.g. similar legal reg. names in different regions	No
Additional ID(s)	Identify companies with other ID schemes.	No
Registration date	E.g. powerful filter to extract new invoice receivers	No
Supported BIS (document types)	E.g. powerful filter to find receivers of certain BIS	No

Searchable fields - OUT

Field	Reason
Free text note	Field only needed if field "Contact info" is removed. This field is preferred rather than field "Contact info".
Contact info	Find contact point to fix problems
Website URL	Direct sender to relevant information

Actions

- ▶▶ **Get a decision on Design A and B as well as data elements to move forward**
- ▶▶ **Get the PEPPOL Directory software up and running**
 - ▶▶ Finish implementation
 - ▶▶ Initial version operated on behalf of OpenPEPPOL
 - ▶ If Design A is chosen, it will be up and running in 2016
 - ▶ BRZ (AT) offered to host the initial version of PEPPOL Directory
 - ▶▶ Future versions will probably be operated by EC
- ▶▶ **Publish the PEPPOL Directory base document and a guide for SMP providers**

Plan ahead

- ▶▶ **Reactivate the PEPPOL Directory work group**
 - ▶▶ Regular telephone conferences
- ▶▶ **Collect experiences and improve the specifications**
 - ▶▶ Identify obstacles (and climb them)
- ▶▶ **Get feedback on the software solution**
 - ▶▶ Join the development
- ▶▶ **Your active participation is appreciated!**
